

FACULTY OF SCIENCE, TECHNOLOGY AND COMMUNICATION

# Information Security Education Day (ISED)

*Theme 2017: Emerging regulations: what you will need to do to be standard and compliant in a close future.*

28 April 2017 - 9:00-16:15 - Campus Belval - Maison du Savoir - Room 3.520

## PRESENTATION

The Information Security Education Day (ISED) is a yearly one-day event co-organized by the University of Luxembourg and the Luxembourg Institute of Science and Technology (LIST), sponsored by the Club de la sécurité de l'information Luxembourg (CLUSIL) and the Interdisciplinary Centre for Security, Reliability and Trust (SnT).

ISED provides each year new knowledge on a hot-topic related to security and privacy. It is an ideal forum where academics and practitioners can learn about the different facets of a key-topic, exchange and discuss ideas, and compare experiences.

In this spirit, ISED seeks to be an interdisciplinary event, open to all. The speakers will bring their expertise in different areas covering the legal, technical and research-wise facets of the theme.
